Helsinki Region Infoshare – www.hri.fi

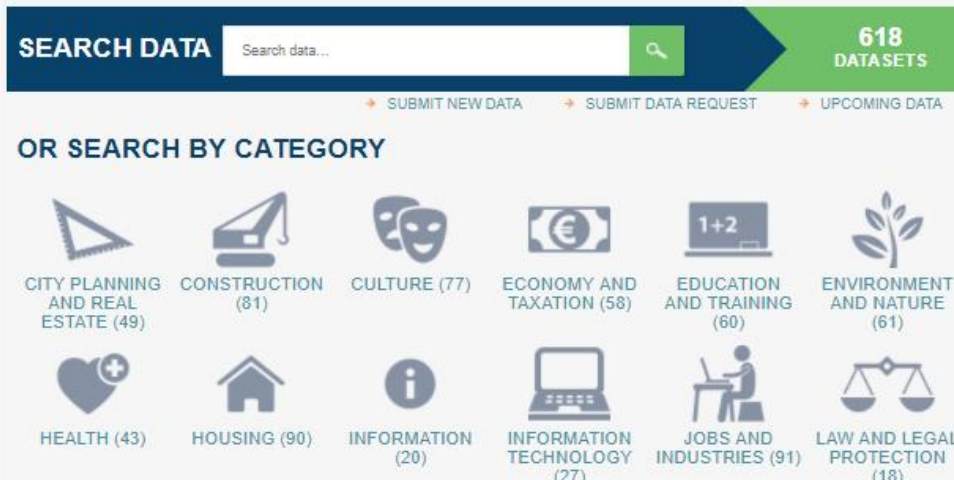

The screenshot shows the Helsinki Region Infoshare (HRI) website. At the top, there is a dark blue header with the HRI logo and navigation links in Finnish, English, and Swedish. Below the header, a white banner contains the text: "This English version of the HRI service gives you the key points. For the extensive version, please see the Google translation of the Finnish version." The main heading reads "Open data from the Helsinki Metropolitan Area for you to use freely". Below this, there are four featured articles with images and titles: "Data tells more than gut feeling", "QGIS already suitable for experts", "Democratic infosharing and transparency", and "Crowdsourcing and the IoT: new ways of collecting data about the city". A "Show more articles" link is at the bottom right of the featured articles.
