

SMART**LAB**

Future City Challenge

November 2, 2017 – Matti Luhtala,
IT Administration, SmartLab Vantaa

Dreams are the stuff the future is made of

Whose dreams the city is built with?

Vantaa Challenges

Societal

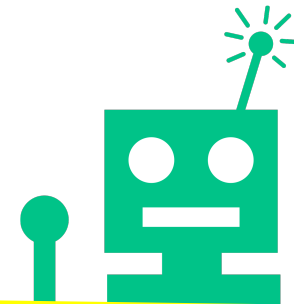

- Immigration
- Social Exclusion
- Unemployment
- Education
- Aging
- New working practices

Technological

- Artificial intelligence
- Robotics
- IOT, MyData, Open Data

Initial mind triggers

- Surprising, yet pleasant encounters with inhabitants at a digital fog screen
- A dive into community experience through caring data stream
- Creative frenzy with data - which elements in the everyday life move and shake people?

Technical Magic: For the teams Vantaa provides dynamic data sets stored in Bluemix server. The data can be accessed through our APIs in JSON form.

Vantaa as Experience: Participatory, Transformative and Insightful

Future City Challenge Activities

Future City Challenge – Let's do it!
