Let's make Helsinki the most functional Smart City in the World

An innovation unit for the City of Helsinki, Forum Virium aims to build Helsinki into the most functional smart city in the world in collaboration with companies, the scientific community and residents.

What is Forum Virium Helsinki?

- An innovation unit established in 2005, which develops urban solutions of the future
- These encompass smart city, smart mobility, open data and the Internet of Things
- A non-profit limited liability company fully owned by the City of Helsinki
- Employs 40 top experts
- The unit operations are funded by the City of Helsinki and different EU projects with about EUR 5 million a year

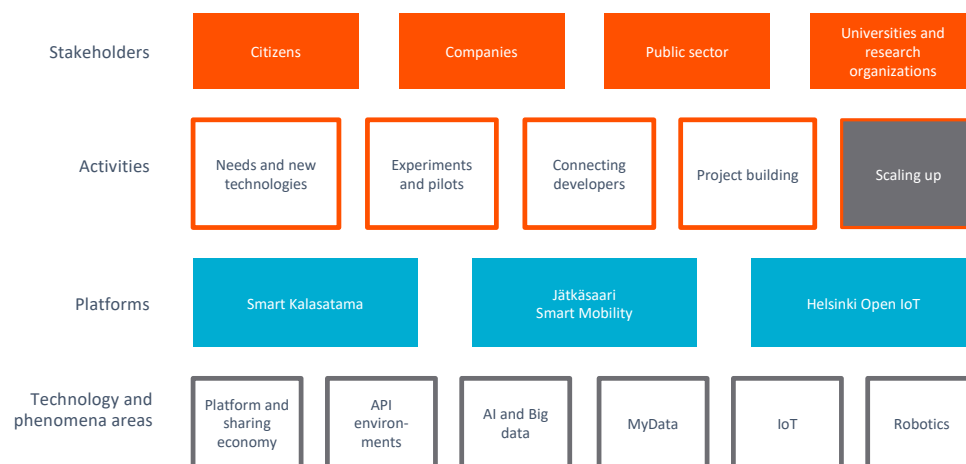

**FORUM
VIRIUM
HELSINKI**

What does Forum Virium Helsinki do?

- Smart city projects in Finland and EU countries. Currently 25 projects running.
- Collaboration with companies, the scientific community and residents
- Digitalization of the City of Helsinki
- Our achievements:
 - We made Helsinki data open to the public
 - We turned Kalasatama into a smart city district
 - Next we will bring robot buses onto the city's streets

IoT can help us solve many challenges in Smart Cities

Smart City Open IoT program

Aiming for open and modular IoT infrastructure and ecosystem

Taking out friction from utilizing data and IoT technologies in Helsinki through:

- Developing new means for collecting meaningful
- Supporting piloting through physical and digital platforms and technologies
- Providing funding and resources,
- Training and capacity, and
- Building digital single market

ACTIVE TRAVEL INSIGHTS

Real-time data on urban movement to provide non-motorised transport across Europe.

The network of things that solution uses cutting-edge sensors to provide real-time data on public routes at our testbed locations in each city.

The project takes place in Antwerp (Belgium), Eindhoven (Netherlands), Maastricht (Netherlands) and Manchester (UK).

MyData Vision

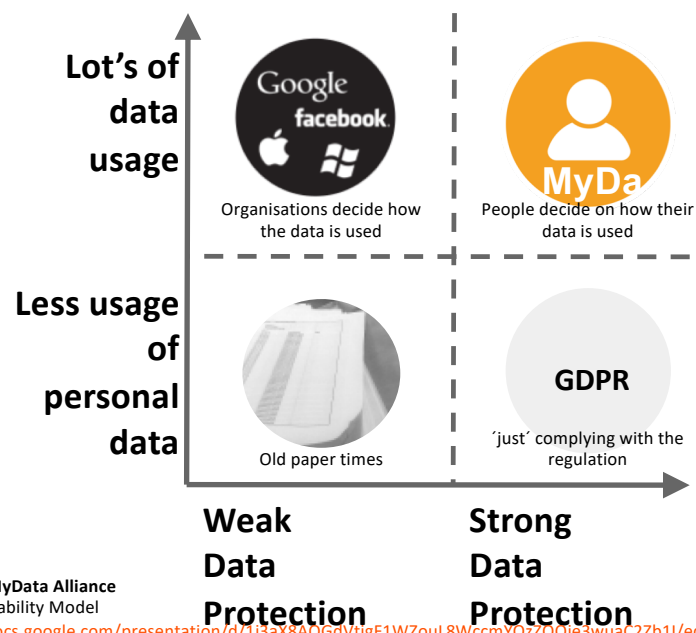

The core idea is that individuals should be in **control of their own data**.

The MyData approach aims at strengthening **digital human rights** while opening new opportunities for businesses to develop innovative **personal data based services** built on mutual trust.

Helsinki committed to furthering mydata principles

- Helsinki has already taken first steps to this model by **mapping the sources** of the city's personal data reserves and **drafting concepts** for trying out MyData solutions in the future.

<https://www.hel.fi/uutiset/en/kaupunginkanslia/helsinki-commits-to-furthering-mydata-principles>

- Report states that at **least 209 out of almost 800 Helsinki's IT systems** contain personal data
- Types of personal data vary -> but email or address were included in 40% of the cases

**We aim for data-enabled smart cities
where data, whether open, closed or
mydata, can create value for both
individuals and society.**

**FORUM
VIRIUM
HELSINKI**

To achieve this, we collaborate with the city, companies, the scientific community and residents.

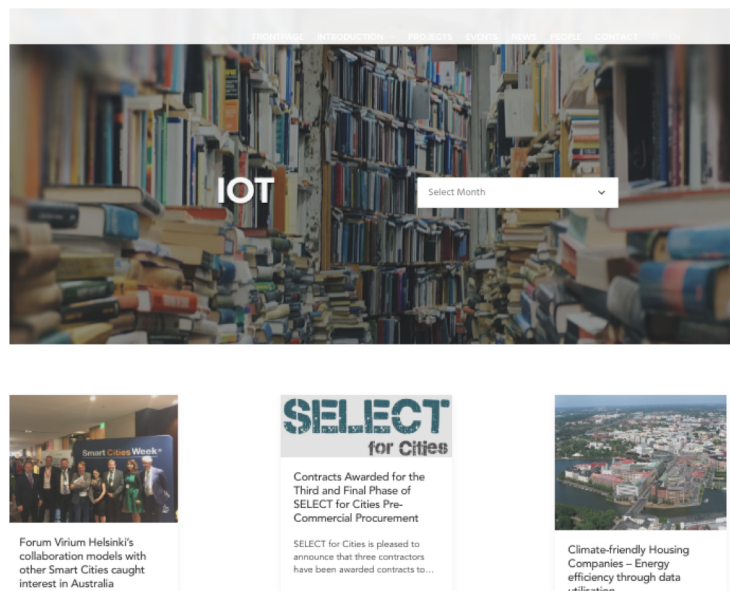

We bring ease to using the city as a platform through data, APIs, open source code, funding and support.

How can we help you to create future city services in Helsinki?

How can we shape future of cities together?

Tarjolla dataa, teknologioita ja tukea tulevaisuuden kaupunkiratkaisuihin

Tarjolla dataa, teknologioita ja tukea tulevaisuuden kaupunkiratkaisuihin

Forum Virium rakentaa avointa ekosysteemiä, jossa monimuotoinen toimijajoukko luo uusia kaupunkipalveluja ja liiketoimintaa. Tästä sivulta löydät avoimesti lisensoidut, kokeilutoiminnassamme syntyneet aineistot, avoimen lähdekoodin ohjelmistokomponentteja, tietoa yhteistyöryhmästä sekä tukipalveluistamme, jotka ovat kaikki ovet vapaasti hyödynnettävissä lisensien ja käyttöehtojen puitteissa. Tee näistä yrityksellesi bisnestä, ota etunojaa uusiin teknologioihin tai rakenna helankiläisiä hyödyttävää ratkaisua.

[DATA](#) [RAJAPINNAT](#) [LÄHDEKODIT](#) [VEKOTINVERSTAS](#) [VERKOT](#)

Dataa ratkaisujen raaka-aineeksi

Oli mielelläsi uusi sovellus tai tai tarvitset dataa algoritmien kouluttamiseen tai paremman ymmärryksen rakentamiseen, on käyttöäsi tarjolla monenlaisia aineistoja. Kaupungin avoin data löytyy osoitteesta hti.fi.

Forum Viriumin hankkeissa tehtyjen datankeruukokelujen aineistoihin (muun muassa melu, ilmanlaatu, kävijäilaskenta) voit tutustua Vekotinverstaan sivulta löytyvien linkkien kautta: <https://vekotinverstaas.fi/datankerayskokeilut/>

Soon also in English!

Help us to make it even better.
