

INSTRUCTIONS: Associations can use this form to prepare a general health safety plan for all of their activities or separate safety plans for specific types of activities.

It is not necessary for the association to submit the plan to the city. The association shall store the health security plan and make it visible to customers (e.g. in pdf format distributed to the association's instructors).

1. Background information	Name and business ID of the association/organiser of leisure activities:
	Contact information for the representative of the association/organiser of leisure activities (name and telephone number/e-mail address):
	Types of leisure activities offered by the association/organiser of leisure activities to which this plan pertains:
2. Health safety plan	YES
	We have read the health safety instructions issued by the authorities.
	We regularly remind and instruct participants about the health safety guidelines and instruct participants on how to adhere to them.
	We send participants displaying even the mildest flu symptoms home in order to protect the rest of the group.
	We have made hand sanitiser and/or hand washing stations available to participants.
	All equipment used for the activities are disinfected once the activities are over.
	The use of face masks indoors is recommended for instructors and participants aged 12 and above unless they cannot do so for health-related reasons. The use of face masks is recommended at all times, except during actual sports activities.
	The COVID-19 passport is checked for all persons over the age of 16-years-old entering the premises with the THL (Finnish Institute for Health and Welfare) application.
	Describe how the activities are organised in a way that enables close contact to be avoided.
We monitor adherence to health safety guidelines during leisure activities.
