Would you like to organize an event in Helsinki?

Are you planning an outdoor concert, a food festival or some other event in Helsinki? Here's how to proceed.

Check first which permits you need

If you want to hold an outdoor event in a park, a public square, or a street, you'll probably need an event permit from the city officials to use the common spaces.

The characteristics, size, location, content etc. of your event determine which permits are needed.

Remember that in addition to an event permit, you might also need other permits, for example for selling food etc.

Apply online

The city of Helsinki has several event sites and areas you can use. Check our website for information on areas, prices and applications or contact us and we'll help you with your event planning.

If you're looking for a venue for a small-scale event or meeting, which doesn't require a permit, you can also use the Varaamo service: **varaamo.hel.fi**

Helsinki supports organizing events that are available for the public with grants.
