1) Enrolling at your local school

Enrolment at your child's local school 13.–29.1.2021 is carried out online via the **ASTI Online Service** at asti.hel.fi. The local school allocated to your child is stated in the enclosed compulsory education note.

However, in the following situations enrolment is carried out by visiting the local school:

- You are currently applying for a decision on starting basic education one year earlier or later than the statutory school age.
- Your child has been granted extended compulsory education.
- You are applying for extended compulsory education for your child, and your child will continue in daycare for a second year of pre-primary education. In such case, a decision will be made regarding starting basic education one year later than the statutory school age.
- You are applying for special support for basic education for your child.
- Your child is enrolling in language immersion education at the local school.

If you want to replace the Swedish-language local school of your child stated in the compulsory education note with a Finnish-language school or vice versa, please enrol at your preferred local school.

Pupils living in the school admission area are always given admission priority at the school, but if places are available, the school can also admit pupils from other areas.
