## The From Work Activities to Employment project strengthens the equality of Helsinki residents

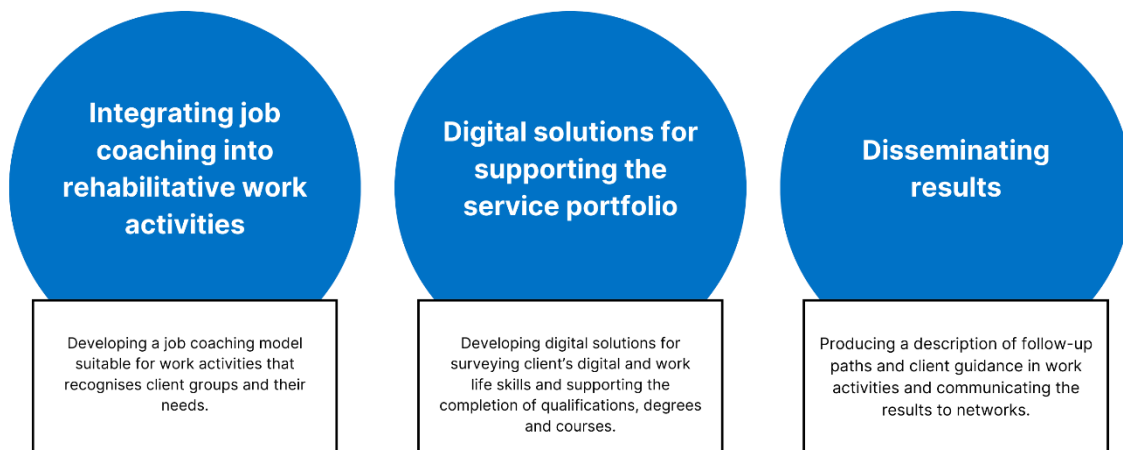

The From Work Activities to Employment project strengthens the equality, participation and work life skills of Helsinki residents by improving the range of services available to the work activities clients of the City of Helsinki Social Services, Health Care and Rescue Services Division.

### Objective

We will integrate a new set of services into work activities with the aim of improving the opportunities of the diverse client base to access employment and studies.

The project will develop a job coaching model suitable for work activities that recognises client groups and their needs. Through job coaching, clients can be provided with personal, stronger support for employment.

In addition to this, the project will test and develop digital solutions for surveying client's digital and work life skills and supporting the completion of qualifications, degrees and courses. These digital solutions will facilitate clients' transition to studies or employment.

### Duration, partners, funding and total budget

Duration: 1 March 2023–30 September 2024

Partners: The City of Helsinki and Forum Virium Helsinki

Funding: ESF + ELY Centre for Häme
